Personal profile

I am a third year student pursuing a degree in BSc Mathematics and Computer science at Machakos university. I am a self-motivated, hardworking and ambitious individual with a great passion in software development and committed to pursue my career in this field.

Professional profile

My main focus these days is building accessible, inclusive and human centered applications.

Educational background

Sep 2019 to date: Machakos University

BSc Mathematics and Computer Science

2015-2018: Njabini Boys High School

Kenya Certificate of Secondary Education (KCSE)

Programming skills

Languages: HTML & CSS, JavaScript

Frameworks: Reactjs, Angular, Vue, Ionic framework, jQuery, Nodejs, Bootstrap,

Tools: SCSS, Git and GitHub, Typescript, MongoDB, MySQL

Experience

VintEx Technologies: Jan 2023 to date

I did an internship at Vintex technologies building E-markets website administration panel using Vue, Nodejs, Express and MySQL.

Projects

Machakos university app

I built an android mobile application to help machakos university students navigate the school website easily using Ionic framework. The app has more than 1000 downloads and 4.9-star rating on the play store.

Vendor Machine manufactures

I built a website for vendor machine manufactures using HTML and SCSS.

Swahili bootstrap

I built a Swahili version of the popular bootstrap framework.
